

Yala Peak Climbing

 12 days

From \$2190

What can you understand of climbing a peak? Well, to those who might not get it yet, but mountain climbing or climbing a peak is where climbers, who are physically fit, considers climbing a 7000 ft mountain that has an altitude of 5732 meters without any experience or training. This is why it is popular for tourist to try their hand in climbing a mountain, especially when a tourist had no experience nor known the background in the art of climbing a mountain. The best way to begin your adventure is to try out the Yela Peak, not only Yela Peak is famous among the tourist and mountain climbers/trekkers, but it is perfect for beginners who wanted to try out and learn mountain climbing the safest and easiest way. Yela Peak can be found in the Langtang Region of Nepal. The Yela Peak is a non-technical peak that offers the best and outstanding view that you've ever seen, such as the Shishapangma which is 8,013 m, which is the highest mountain in Tibet.

Yela Peak is the excellent choice for a beginner like you to try out mountain climbing. Not only that it is perfect to experience your very first mountain, but it is also not challenging, meaning it is easy to overcome and reach to the top with no problem. You can enjoy the view whenever you want without the fear of slipping or making too many mistakes, especially when you are a novice. It is preferable for you to take the easiest choice before trying something difficult. Knowing that there are not challenges that will hinder your trek, you don't have to worry about anything, just simply the joys of nature, the coldness of the mountain and the beautiful that you are provided to admire.

In regards to the base camp, it is also one of the best services that you are going to experience, soon enough. The location is perfect thanks to the position that it was placed, which is surrounded by traditional ethnic settlements and dense forest that from Nepali origins where Tibetans are there to assist you in any way they can. The good thing about Yala Peak is that you don't have to require technical stuff and to have 0 experience can be a good thing. So, it is no big issue about it. However, there's one more thing that you need to know, to those who are neither physically fit nor good at the outdoor activity than mountain climbing isn't your cup of tea. This activity requires a lot of physical workouts, and if you are not fit for it then there's no need to force yourself out, you might have some serious injury about it, especially when your muscles aren't familiar with such tiring exercise. The best part about the Yala Peak is that the altitude isn't too demanding so facing them head on won't be a challenge and easy to work with. Bottom line to this is that novice mountain climbers, Yala Peak is perfect for you to try out.
